

BIG TREE

At the edge of town, not too far from here is a forest, which is home to a very special Big Tree. It is tall like a giraffe, with branches that curve around you like a friendly hug. Many creatures live inside the Big Tree, each one different from the next. There are many stories about these very special creatures.

BIG TREE

Ellen Caterpillar

Ellen Caterpillar's favourite place is the fruit salad branches, and after a big lunch she loves to wrap herself up in a cosy leaf blanket for an afternoon nap.

Morty Monster

At the base of the Big Tree, amidst hollow spaces and secret hiding places, behind a big wooden door lives Morty Monster in his snug tucked away nook.

Ollie Monkey

Ollie Monkey lives and plays in the branches of the tree. He dives and swings around his Big Tree playground, with a big smile and a friendly hello to anyone he might come across.

Susan Kitten

At the very top of the Big Tree, in the highest branches lives a small kitten called Susan. The gently swaying branches help her find sleep, and she likes feeling close to the sky.

Percy Bee

Percy Bee moved into the Big Tree with his family. Together they built a hive and are enjoying taking care of each other in their new neighbourhood.

Molly Snail

Molly Snail recently moved into the Big Tree after a long journey. Every day she explores a different part of the tree and makes another friend in her new home.
