

# Squiggle and Swap Drawings

Let's do some squiggle drawings together. We'll need some paper and at least two pens or pencils to play.

I will draw a squiggle on my page and then pass it to you. You can draw a squiggle on your page and then pass it to me.

Let's look at the squiggle the other person drew for us and see if it reminds us of anything. Then we can draw our pictures building on the squiggle on our page.

When we are finished, we can show each other our drawings. Should we go again?

## Some examples of squiggle drawings made by children
