

Together Time Origami Chatterbox

A game to encourage and explore connection.

This chatterbox game invites us to play and learn more about each other. One person operates the chatterbox, while the other takes a turn at choosing from its options to make their way to the centre of the folded paper which has activity ideas to choose from.

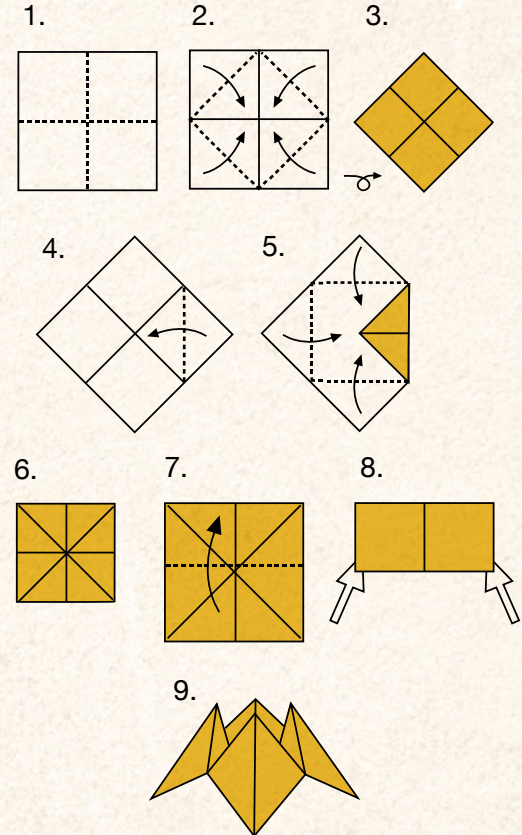

How to Use a Chatterbox:

- The Chatterbox operator holds the chatterbox on thumbs and fingers.
- The player chooses from the four outside sides, then the chatterbox operator spells out their choice while moving the parts of the chatterbox.
- The player chooses a number from the four inner numbers, then the chatterbox operator counts out the number, moving the chatterbox again.
- The player chooses a number again and the chatterbox operator opens out the flap with the chosen number on it.
- The player chooses from two activity prompts written beneath the chosen number.
- Swap and repeat. Different choices will lead to different activity options in the centre.
